RG104 Entry-1 Box 180

Chicago Feb 1 93

Dear Sir.

The sole point is that we prefer New Coins. Sub Treasurer has supplied us regularly since you stopped filling our orders, but our customers are declining to take the old coin from us reporting that they can get new ones of our neighboring wholesale Dry Goods houses. Our inference from this is, that new coins are being shipped to Chicago. If there is any discrimination being made we hardly supposed it would be against so large and old time customers as our house. If you will fill order as above suggested we will forward draft and await your turn — "four weeks", or longer.

Respectfully,
Marshall Field & Co

We have got entered an order for any business house in Chicago for 6 months. We transferred some coin to Asst. Treasurer there some time ago, and some house may have had some of it.

However, we will enter your order as stated on within original communication and send you the coin as soon as we get it coined.
